You will need to refer to the Zoning Ordinance to complete your application. You may use the office copy free of charge at the Moretown Town Clerk's Office or you may purchase a copy from the Town Clerk for \$10.00.

Application for Zoning Permit must be completed for ALL applications. Parcel ID numbers for your property may be obtained from the Town's Grand List Book. All land is located in some Flood Zone and maps in the Town Clerk's Office will assist you in determining what Flood Zone your property is located in (A, B, C). Determine the Zoning District (Village-VLG, Agricultural-AG-RES, Commercial-COM, Preserve-PRES, Flood-FLD) for your land by looking at the Zoning District Map in the back of the Zoning Ordinance or the large map on the wall in the back room of the Town Office.

Cottage Industry Addendum. This Addendum is designed to prompt you to address criteria required by the Zoning Ordinance and must be completed and submitted.

Conditional Use Addendum: Cottage Industry is a conditional use. This Addendum is designed to prompt you to address the criteria for a conditional use permit required by the Zoning Ordinance.

Notice to Abutters and Certificate of Service (Mailing): You need to mail a copy of the completed Notice to Abutters to each of those individuals or businesses who abut your property and obtain a CERTIFICATE OF MAILING from the Post Office as proof that you did so, OR you can complete the Certificate of Service and sign that before a notary public to certify that you notified the abutters. Please note that abutters are defined in the Zoning Ordinance and includes the owners of properties which are located across any public or private road and are within 200 feet of the subject property. That measurement is from and to property boundary lines - not buildings.

Application for Disposal System Construction Permit or Waiver. If the conduct of your Cottage Industry will involve employees who are not residents of your household, you will need to submit a State Water Supply or Waiver form obtained from the State of Vermont. An engineer or site plan technician will assist you in this process. The Vermont state permit along with the engineer's or site technician's plan must be submitted at the time of your application.
